OrganicClimateNET

A pilot network of climate organic farms

Join us in transforming organic farming across the EU!

Our mission is clear: to support with the integration of climate-conscious practices within the organic farming community for a climate neutral Europe.

OrganicClimateNET in a nutshell

Pilot Network

OrganicClimateNET is establishing a pioneering network of 250 organic farms organized in 24 hubs - across 12 EU countries to integrate climate-conscious farming practices.

Knowledge Exchange & Supportive Tools For Organic Farmers

Farmers will be provided with knowledge materials, trainings and a decision-making toolbox, as well as participating in peer-to-peer exhanges to learn and implement climate farming.

Climate Farming Strategies

Participating farms will be enabled to integrate climate farming in their farm-strategies, to assess carbon balance, and to leverage financial rewarding mechanisms.

Research and Policy Support

The project includes the evaluation of carbon farming business models, a quantitative assessment of the potential reduction in carbon emissions for EU policy-making, and a plan for raising public awareness.
